Quick explainers on our Programs

THE RESPONSIBLE SOURCING COALITION (RESCO)

A COALITION FOR AN ETHICAL MINING VALUE CHAIN, MINE TO CONSUMER

In partnership with the Rockefeller Foundation, the Development Partner Institute is leading an ongoing multi-stakeholder dialogue on 'Responsible Sourcing: Mine to Consumer'

HOW IS RESCO DIFFERENT?

By accelerating a 'whole of value chain' response to responsibly sourcing minerals and metals, accommodating of commodity differences, and appreciative of the varying resources of different parts of the mining value chain, to ultimately drive more demand for responsibly sourced practices and products.

WHOLE OF VALUE CHAIN
